## The golden era of sleep

Sleep is a naturally recurring state characterized by reduced or absent consciousness, relatively suspended sensory activity, inactivity of nearly all voluntary muscles and decreased ability to react to stimuli.

We are truly living in a golden era of sleep, where science is highlighting how more and more research shows that a good night's rest (or a bad one) can impact our productivity, creativity, decision making and emotional intelligence.

Articles on sleep can be found from ancient mythological God Hypnos to 21st century, which has evolved itself to another level and degree to precision. Now we can understand how our brain waves work, what are the stages of sleep, effects of sleep on ventilation, hormonal changes in sleep, effect of sleep deprivation and other sleep disorders. There is a continuous effort to have a peaceful comfortable sleep and the fact that mattress dictates the sleep quality.

Bipasha Basu and Karan Singh Grover, who are a very active couple and superstars also believe very strongly that a good night's sleep is important to rejuvenate the body. To have the finest sleep, a mattress that suits the body is very essential.

We at Springfit Mattresses and Sleep Systems Care about everyone's sleep and so we manufacture the most modern and technically advanced mattresses & sleep products using handcrafted traditional skills and experience using the finest ingredients for today's discerning clients.

## About Us

When it comes to reputation, we are our closest competitors. We, as a premium mattress manufacturer, meticulously craft our every piece to match your class and style.

As India's luxury mattress manufacturer, we relentlessly work towards providing the perfect sleep solution to our esteemed customers. Comfortable and complete sleep fills a person's life with renewed energy, maximizes performance and boosts overall health and well-being.

Our wide range of high quality mattresses have set a new benchmark in quality and luxury. Our distinctive brand positioning of being the only mattress designed for '6 hours of complete sleep' has been well accepted amongst our consumers and business partners.

In order to achieve this, we are poised to continuously invest in research into people's sleeping habits, building the latest scientific developments and technical innovations into our products. We are proud of our world-class manufacturing units. All our mattresses, upholstered bases, headboards, pillows, protectors, quilts, blankets and toppers are manufactured here in India with the best of technology and materials.

## Springfit Gives Me 6 Hours of Complete Sleep

"I never compromise on my sleep. No matter how busy my schedule is, I firmly believe that it's important to get minimum of 6 hours of sleep a day to look fit and beautiful and keep yourself active throughout the day.

A complete good night's sleep increases Energy Conservation, leading to decrease in the metabolic rate and the body temperature. The benefits of sleep impacts nearly every area of daily life.

Having good 6 hours of sleep every night makes you healthy, wealthy and wise. It keeps you ready to face the new day with aplomb and zeal. Six hours of sleep is a blissful event of the night. It relaxes your body, rejuvenates your brain, and above all it recharges you with positive thoughts. The benefits of six hours of sleep is countless and above all it keeps depression and other psychological disorders, blood pressure hearing ailments, and digestive disorders at bay."

*Bipasha  
Basu*

## Our journey begins at the finest hotels

We realised our passion and dream to make India the best luxury mattresses hub that changes the persona of customer towards buying a perfectly manufactured mattress which has very strong and extensive research, efforts, quality check and teamwork. We are one of India's oldest global brands, archiving tremendous growth to a top-tier global corporation.

In this new era of technology, our commitment to quality and service has remained the same. We believe in having strong framework and follow guidelines to establish good practices. Springfit has worked with over 10000+ organizations, our foundation can be witnessed at our head office in Delhi, India and manufacturing plants located strategically to cover PAN India distribution with reliability and prompt services. The results can be benchmarked against industry or peer-group standards.

We tick every corner, we check every piece with multiple stages of quality checklists and governance areas that is monitored and reviewed by experienced supervisors and managers. Also we are open to develop other products as per client's need and specification and can align our factories to serve with your required specification and quality. We, as a company, are highly focused on quality and we meet international standards.

## Your Mattress Keeps Cool, Even if Your Partner is Hot.

Springfit Mattress introduces Aero Sleep technology with temperature regulating properties that provides the most comfortable sleep one can get. Thanks to its exclusive, transcendent, open, cellular, and sustainable system that provides the best ventilation and comfort in its league. No wonder, the mattress directs heat and moisture away from the body, resulting into comfortable, healthy and better sleep with optimum support to enjoy 6 hours of complete sleep.

**AERO  
SLEEP  
TECHNOLOGY**

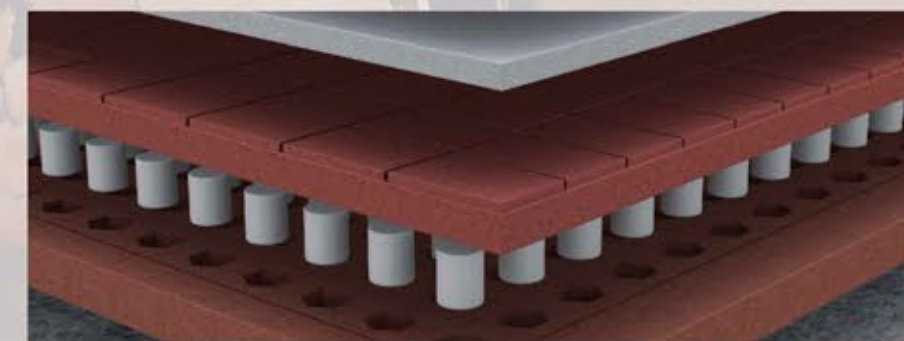

A gamut of sleep induced mattresses are here to pick

Springfit's i-Sleep series is the world of bespoke ode to luxury mattress. i-Sleep #worldcollection has unmatched level of extravagance and finer materials. i-Sleep Collection is very exquisite and premium, handcrafted mattress fully customizable as per your requirement. Generally preferred by business people, celebrities, royalty, actors, athletes who need custom beds for their ultimate comfort. Springfit guarantees you to find the best comfort and best posture while you are in bed.

From the moment you see i-Sleep mattress, you can sense its distinction from the attention to details, the clean lines and the sense of regality, it's obvious that bed is meant for society's aristocrats.

Multi Sensor 3D Springs

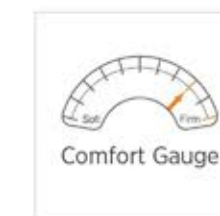

4 Levels of Comfort

i-Sleep Krono is a new benchmark in the mattress industry. It is sinfully accurate combination of firm and soft feel, made with the latest and greatest materials available. i-Sleep Krono is made of four inner levels, which vary in densities so it keeps your body in the correct sleeping posture, all night long. i-Sleep Krono mattress is a perfect art of serving people to get the best night's sleep by infusing multi sensor 3D pocket spring with AquaCell layers, topped with LatoCell and open cell Thermo Gel Memory foam finally wrapped around with beautiful Gold infused Bio-Ceramic fabric, and all this is handcrafted for perfection.

## SPRINGFIT AUTOGRAPH COLLECTION PLAY

A great day starts with a good night. Autograph Play stands out because of how good it is at providing uniform pressure relief across the body regardless of one's sleeping position. Autograph Play is good with both pressure relief and temperature regulation. This mattress is a combination of memory foam and natural latex that provides right amount of firmness to the body and its viscose fabric gives it an elegant look, making the mattress, first choice for a healthy sleep.

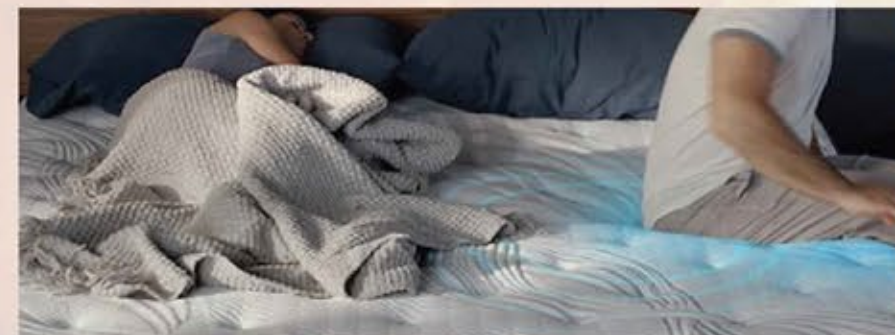

## A touch of class makes a classic

Craftsmanship carried for generations gives rise to a rare perfection. The Club Class Collection is an epitome of elegance and great comfort. Club Class Collection is a wonderful marriage between traditions and technology. Its aesthetic appeal and unique carbon manganese alloy spring makes it class apart from the rest. Each spring moves individually and the weight on one spring barely affects adjacent ones. The effect is sleeping comfort that has no parallel competition.

Zero Partner Disturbance

Carbon-Manganese Alloy Springs

# **Club Class** Grande

The Club Class Grande brings together the finest quality pocketed springs and a thick layer of pressure relieving, temperature sensitive memory foam and latex. The thick top layer of memory foam responds to the body temperature and molds as per body contours by creating an individually tailored surface for optimum support and comfort. Later it returns to its original shape, therefore eliminating the need to flip the mattress. The latex underneath the memory foam provides adequate resilience and maintains premium feeling and comfort. Covered with the most beautiful and comfortable Belgium Velour fabric which will make you never leave your bed.

## Folding Roll-Away Bed

The Springfit Folding Roll-Away Bed is one of the most admired products in the hospitality industry, and satisfies the needs of the most discerning guests. The unique design features a strong folding frame, heavy duty metal legs, better support structure, a premium quality mattress in two attached pieces and smooth rolling wheels. This bed is easy to fold and can be stored in minimum space during the day.

## Box Beds

Wooden Base

The Wooden Platform Bed Base is made from solid hardwood and comes in choice of upholstery, matching the mattress. The wooden platform beds are built with best material and crafted to the specific requirements of the customer.

Spring Base

A Spring Base is the best companion of spring mattress for luxurious feel. Springfit's Spring Base is made using heavy gauge tempered steel bonnell springs to provide extra bounce and stable base to the mattress.

## Comfort Accessories

### Customised Fillers

The duvet is perfect for a cozy and comfortable sleep experience during winters. Light weight, durable, hygienic and elegant, the Platinum Quilt is made from a higher thread count 100% pure cotton fabric, and boasts of attractive enchanting in looks.

### Bed Linen

The Springfit range of bed linen comes in a wide array of thread counts from 200TC to 400TC, though our recommended thread count is 300TC, as it delivers ideal levels of comfort, luxury and aesthetics. The span of the Springfit bed line range covers plain weaves and dobby, and also polyester blended fabrics that are specific to a customer's requirements.

### Hotel Mattress Protector

The superior quality mattress protector goes over your mattress to protect it from water, tea or any type of liquid spills. They add a touch of elegance and also add some bulk, so that there is an increase in the size of the mattress.

### Customised Mattress Topper

We believe in sustainability and green thinking. We ensure quality and sustainability to go hand in hand. The Hotel Green mattress utilizes renewable resources and all-natural materials, like pure flax, wool and cotton, and genuine, hypoallergenic fabric to create an eco-friendly product that delivers unmatched sleep comfort and luxury.

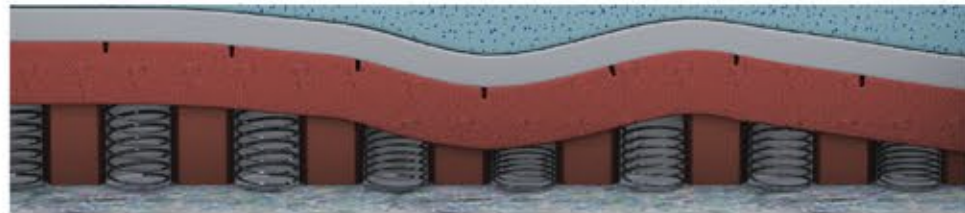

## SPRINGFIT

### Innovation & Research

#### AERO SLEEP TECHNOLOGY

Springfit Mattress introduces Aero Sleep technology with temperature regulating properties that provide the most comfortable sleep one can get. Thanks to its exclusive, transcendent, open, cellular, and sustainable system that provides the best ventilation and comfort in its league. No wonder, the mattress directs heat and moisture away from the body, resulting into comfortable, healthy and better sleep with optimum support to enjoy 6 hours of complete sleep.

Multi Sensor 3D Spring

The Aqua Pocket Technology features 16 internal chambers that naturally and continuously adapt to your body's every position creating a supportive layer that provides greater support to specific stress areas of your body and offers instant comfort.

Charcoal Infused Visco Elastic Foam

A unique process of infusing charcoal into Memory Foam, that leverages charcoals highly absorptive natures, delivers multiple benefits. This new foam can absorb moisture from humid air and then release it when the air is dry, thereby delivering superior temperature regulation.

Breathable Quilted Cover

Your body breathes easy even when any layer of our mattress comes in contact with it. Owing to the aero sleep technology, our mattresses are highly breathable and stay cool throughout the night, giving you a comfortable 6 hours of sleep every night. This technology also helps in keeping your mattress away from bacterial and fungal allergies and takes your sleep experience to the next level.

Memory Foam

The NASA approved memory foam layer makes the body freely float on the mattress. This helps in improving blood circulation in the body. Also, due to its low bounce back properties, this foam does not put any pressure on our body pressure points.

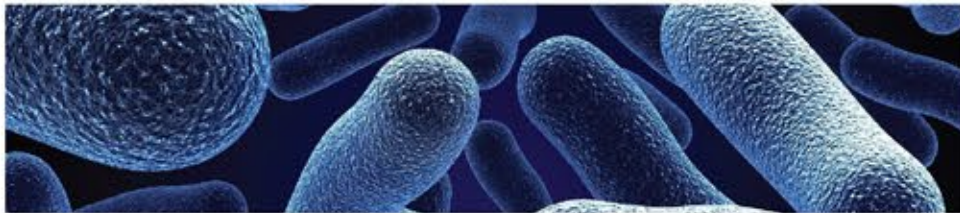

HR Foam

With the 100% pure, intelligent HR PUF and the inside ZIP, this foam becomes highly resilient and its soft dispersion qualities eliminates the creation of any kind of pressure points.

Crystal Silk Foam

After infusing the conductive properties of diamond and silk in the foam, we got some unexpected results like the best level of comfort and class. This unique combination helps in keeping the heat away from your body. It also has some anti-microbial properties. Because of the conductive properties of diamonds and silk, it increases the longevity of the mattress. It's yet another proof of our innovative thinking. No wonder, our each and every product comes with one-of-the-kind features.

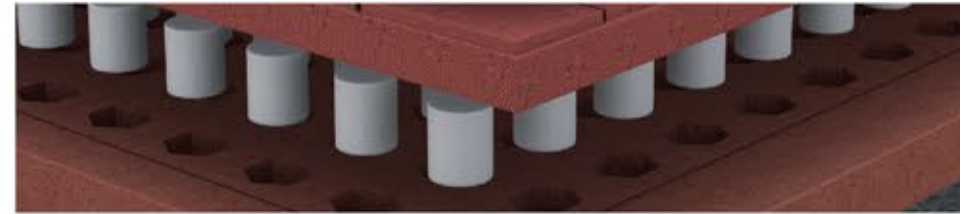

Protected against Bacteria

You might not be thinking of bacterial infection while buying a mattress. But they are a matter of great concern as they might be living in the mattress you are planning to buy. Owing to some groundbreaking research done by our various partners, we have made a product that will keep bacteria away from your mattress for years. Springfit's cover is non-allergenic with advanced fibers designed to enhance your body's circulation and improve pressure points. Bid farewell to volatile organic compounds found in many standard mattresses and be rest assured that your bundle of joy is safe and sound throughout the night.

100% Natural Latex Foam

This foam keeps you warm during winters and cool during the summers. Latex foam is known as the most durable foam, which provides the ultimate comfort and lets you sleep in the lap of true luxury.

Aqua Pocket Technology

Springfit's defines the new name of comfort with its aqua cell technology used it is signature series. Aqua cell has array of tunnels going through their Breathable HR foam. In combination with Springfit's gel foam and pocketed springs aqua cells provide the comfort of your dream.

Zero Partner Disturbance

The individually packed inner springs absorb weight and compress independently of each other. This means that you will feel almost nothing when your partner moves. With pocket spring our bodies are well supported and are most comfortable, thereby significantly reducing our tossing and turning during sleep.

No Sagging Technology

Special anti-sagging technology in this mattress gives a long life to it and provides you with even, form and unequalled comfort for years to come.

Dry Cool Foam

This special variety of foam is created when burst bubbles during the foaming process creates an interconnected cellular network. This makes the foam breathable with open cells.

Talayay Latex Foam

The more Talalay latex in your mattress, the more it offers good support for your body, relief for pressure points and keeps your sleep environment hygienic and hypoallergenic. It is the healthiest, most hygienic and natural comfort material in the world.

100% Natural Viscose Fabric

It is made from wood pulp, a naturally-occurring, cellulose-based raw material. As a result, rayon's properties are more similar to those of natural cellulosic fibers, such as cotton or linen, than those of thermoplastic, petroleum-based synthetic fibers such as nylon or polyester.

Carbon-manganese Alloy Springs

Springfit proudly introduce carbon-manganese alloy pocketed spring mattresses in India for the first time. These alloy springs are double tempered to give better elasticity and the extra strength of carbon. They also exhibit the rust and corrosion-resistant properties of manganese.

ReActive Foam

This open cell foam is created from shredded pieces of foam, which is then re-activated to form one single piece of foam. Re-active foam is very dense and provides a solid and firm support base. The extraordinary density ensures ample support for the spine and optimal distribution of body weight.

Meets International Fire Standards

Cotton is possibly nature's softest and most comfortable gift to mankind. It provides wonderful comfort and breathability, allows air to circulate around your body, keeps you dry and comfortable. Overall cotton creates a healthy and rejuvenating sleeping environment, that helps you to fall asleep faster and sleep better.

Back Support

Designed to help you sleep without pain and stiffness, it is firm and soft enough to support your lower back. High density, high quality, comfortable layers and spring systems, our each and every mattress goes through stringent testing processes and rigorous checking procedures. We use technologies like pressure mapping to understand and manufacture the best mattress for you to sleep like a winner, wake up like a fighter and live like a king.

Memory Foam

An innovative visco-elastic layer that gets refreshed with human touch. It has millions of thermo-active gel capsules that have the ability to lower the temperature of the body part in contact by up to 4 degrees.

MATTRESSES & SLEEP SYSTEMS

## Crafting restful sleep for a restless world

We craft sleep for a restless world. A world that refuses to slow down. A world full of people who are waking up far too tired. For those who understand the true value of sleep, our mattresses are a natural extension of their lives. We are passionate about crafting deep restful sleep, because we know there are a few things more important. For generations, we have been refining our techniques, innovating new materials and honing our craftsmanship. All to uphold a solemn promise, to never compromise on sleep.
